

In response to the resumption of physical courses starting from October 4th, 2021, and in order to provide a safe and convenient passage to teachers and students, according to the movement routes of teachers and students, the barrier fences which are set at the center axis passage of Kuang-Fu campus and Cheng-Kung campus will be removed and the enclosed entrances as mentioned below will be reopen:

1. The entrance of Kuang-Fu campus facing Sheng-Li Rd.
2. The entrance of Cheng-Kung campus facing Sheng-Li Rd.
3. The entrance of Cheng-Kung campus facing Chang-Rong Rd.
(The passage between Department of Materials Science and Engineering and Department of Resources Engineering)

The fences and obstructions placed at the above-mentioned entrances will be removed to facilitate the passage of teachers and students. The rest of the 11 entrances maintain the original control procedure and it is necessary to remind people outside the school to log in the NCKU announcement platform (KUAP).

In addition, in accordance with the epidemic prevention requirements of MOE, all departments and administrative units are still required to continue the implementation of body temperature measurement and do the access control at the entrance of the buildings.
